PROFILE

Computer Science with Statistics undergraduate building responsive web interfaces with HTML, CSS, JavaScript, React, and Next.js. Seeking a frontend internship or junior role to contribute to real projects and deepen practical development skills.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript

Frameworks: React, Next.js

Frontend practice: Responsive layouts, reusable components, cart interactions, CSS animations

PROJECTS

CHOPLY | Food-ordering frontend prototype

HTML, CSS, JavaScript | June 2026 - Present | In development

- Built cart interactions with automatic item totals and unique order identifiers to support the ordering flow.
- Added favorite-food interactions and popular-food displays to make the food catalogue easier to browse.
- Implemented a client-side sign-in flow and refined responsive food cards and page layouts for mobile and desktop.

Personal Portfolio

React, Next.js, Tailwind CSS | In development

- Created a responsive portfolio with project, about, and contact sections, plus links to professional profiles.
- Added scroll-reveal effects, an animated learning-tools strip, and a custom mechanical animation to demonstrate interface interaction.

Calculator | Personal project

- Built a mini calculator for everyday calculations and published it through GitHub.

EDUCATION

University of Nigeria, Nsukka

Bachelor’s degree in Computer Science with Statistics

2025 - Expected 2028
